Reminder: Additional Repair Materials (ARM) procedure codes

The ARM procedure codes (71309, 71310, 71311, 71313, 71314, 71315, 71010, 72021) are assigned only a fixed internal lab fee and are to be used, when appropriate, only in addition to eligible regular repair procedure codes*.

These specified ARM procedure codes, as with the eligible regular repair codes, do not require predetermination (PD) and can be sent directly to Express Scripts Canada for payment **EXCEPT** where a submission involves multiple claim lines for the same ARM code, for the same client, on the same DOS (see examples below). **Denturists must send submissions involving multiple claim lines for the same ARM code as post-determinations (post-approvals) to the Dental Predetermination Centre (DPC) for review.** If such submissions are sent directly to Express Scripts Canada and not supported by a PD number, only the first ARM claim line will be paid and all duplicate ARM claim lines will be rejected. The rejected claim lines will then need to be submitted to DPC for review.

Examples:

* NIHB eligible regular repair codes: 36110, 36120, 46110, 46120, 36210, 36220, 46210, 46220, 46310, 46320. Please be reminded that these procedure codes have a frequency limitation of 1 (one) per prosthesis in any 12 month period.
