

## NEW INFORMATION

### Price File for Ostomy Supplies

On **March 16, 2015**, the NIHB Program will implement a national price file and create two new benefit codes for select ostomy supplies.

The prices have been established based on a scan of manufacturers pricing, consultations with industry representatives and an analysis of program utilization and pricing data. MS&E providers must use the new codes and follow the pricing structure set out by the price file. Below is the list of new codes and pricing for selected ostomy items. Please note that the prices in this price file do not apply to those providers with pre-existing contracts with Health Canada for ostomy products.

Please be reminded that the NIHB Program covers claims for eligible benefits/services which are not covered by other federal, provincial, territorial or third-party health insurance plans. When an NIHB-eligible client is also covered by another public or private health care plan, claims must be submitted to the other plan first. After the first payer processes the claim and generates an Explanation of Benefits (EOB) form or equivalent document, the EOB (or equivalent) and a copy of the claim can be sent to your local Health Canada regional office for processing. The EOB or equivalent document must include the amounts paid by the first payer.

This information is also available on the Health Canada website at [www.healthcanada.gc.ca/nihb](http://www.healthcanada.gc.ca/nihb).

For prior approvals (PA) received before March 16, 2015, providers are advised to submit their claims using the code(s) referenced in the PA confirmation letter. Requests for PA received on/after March 16, 2015 should use the new codes and prices to avoid the PA request being adjusted.

On **March 16, 2016**, code 99400729 will be discontinued. One of the two new codes listed above must be used.

For clients who require more ostomy supplies than what the Program regularly covers, or who require a specialty item, the prior approval request must be supported with a prescription stating the medical need/justification.

Please note that items with an annual frequency limit must be provided and billed for no more than a three-month period at a time. This applies to items with or without prior approval.

## REMINDERS

### Modification Return Process

When submitting claims, please ensure the entire claim form is complete before sending it to Express Scripts Canada for claims processing. A new *Express Scripts Canada Medical Supplies and Equipment Provider Agreement* must be completed, including the effective date. Please include the reason for the new agreement (i.e. change of ownership, new opening/registration or NIHB re-registration to Express Scripts Canada).

- Please fax **all** pages of the *Express Scripts Canada Medical Supplies and Equipment Provider Agreement* with a cover sheet to: **1-855-622-0669**.

### Registering Additional MS&E Locations

Each MS&E location is assigned its *own unique Provider Number* (one unique Provider Number per location). All locations must be registered with Express Scripts Canada in order to avoid disruption of service for claims processing and/or payment.

If you have not registered a new location, please complete and sign the *Express Scripts Canada Medical Supplies and Equipment Provider Agreement* and fax to **Express Scripts Canada's Provider Relations Department at 1-855-622-0669**.
